

THE A.E.I.S. PROJECT

A.E.I.S. 2022 Non-Binding Open Season

THE APPALACHIAN STORAGE HUB & TRADING POST

The A.E.I.S. Appalachian Storage Hub & Trading Post

- ◇ Renewable Energy
 - ◇ CO2 & Ammonia Storage Potential
 - ◇ Natural Gas/Methane Storage Opportunities
 - ◇ Company Owned Production Fields
 - ◇ 5100 “HBP” Held By Production Acres
Providing Access to All Formations
 - ◇ Shallow Reservoirs 40-50% Depleted
 - ◇ Multiple Formation Considerations Provide
Long Term Options
 - ◇ Proximity and Connection to the Tennessee
Gas pipeline, the Texas Eastern Pipeline, and
Columbia Gas Storage facilities
 - ◇ Site Connections to Major Pipelines via
Columbia Gas Connections in Area
 - ◇ Project Efficiencies Include Ease of Transac-
tion, Acreage, Geology, and Infrastructure
-

The A.E.I.S. Project Objective

WW&T Energy & Wishgard LLC along with our partners and associates are establishing the American Energy Independent Systems Master Limited Partnership (A.E.I.S. - MLP), or similar entity, for the purpose of developing an Appalachian Gas Storage Hub & Trading Post in southeast Ohio.

Establishing Strategic Partnerships
